

MASTERGRAIN™

PREMIUM FIBERGLASS ENTRY DOORS

The Difference is in the Details

ABOUT MASTERGRAIN

Premium Fiberglass Entry Doors, and Door Components.

MasterGrain Products are a premium line of fiberglass door system components featuring the most authentic wood grain replication in the door industry. This is achieved by using our patented process based on nickel vapor deposition technology (NVD). The process uses hand crafted wood grain doors and components to accurately capture the natural grain characteristics found in a real wood door system. Combine the beauty and our high quality construction to any fiberglass doors and you will see "The Difference is in the Details".

MasterGrain is proud of our investment in the Canadian and American manufacturing infrastructure and truly understand the marketplace we serve. Through creativity, innovation and leading edge technology, we will continue to develop the finest door system components you can purchase to protect and enhance your home.

PRESTIGE COLLECTION

The Prestige Collection is a line of coordinated door system components, developed using our NVD technology. Coordinated doors and sidelites, lite frames, simulated divided lites, jambs and brick mold combine all the low maintenance benefits of fiberglass with the superior MasterGrain wood-grain finish. The Prestige Collection is the only high volume integrated system of fiberglass components available in the door industry. Available in Cherry, Fir, Alder, Mahogany and Oak grains.

WEBER GRAIN TECHNOLOGY

Premium Fiberglass Entry Doors, Sidelites and Lite Frames.

Weber Grain Technology is a patented process that authentically replicates any natural surface. The door process begins by hand selecting the most desirable wood pieces to build a real wood door. A silicone casting accurately picks up the finest details of the wood grain and is transferred into a door mold using our Nickel Vapor Deposition Technology. The mold produces fiberglass skins used on MasterGrain doors with random grain depths and all the natural characteristics of real wood making our doors virtually indistinguishable to real wood doors.

Why MasterGrain Fiberglass Frames?

- Perfect grain match to all MasterGrain door components
- Equal expansion and contraction to fiberglass doors during extreme temperature fluctuations.
- Fiberglass frames are more rigid than competitive plastic frames. This ensures a tight weather seal to the door.
- Fiberglass will not warp or twist under extreme temperatures.
- The frames accept an extruded dry seal eliminating the need for messy caulking

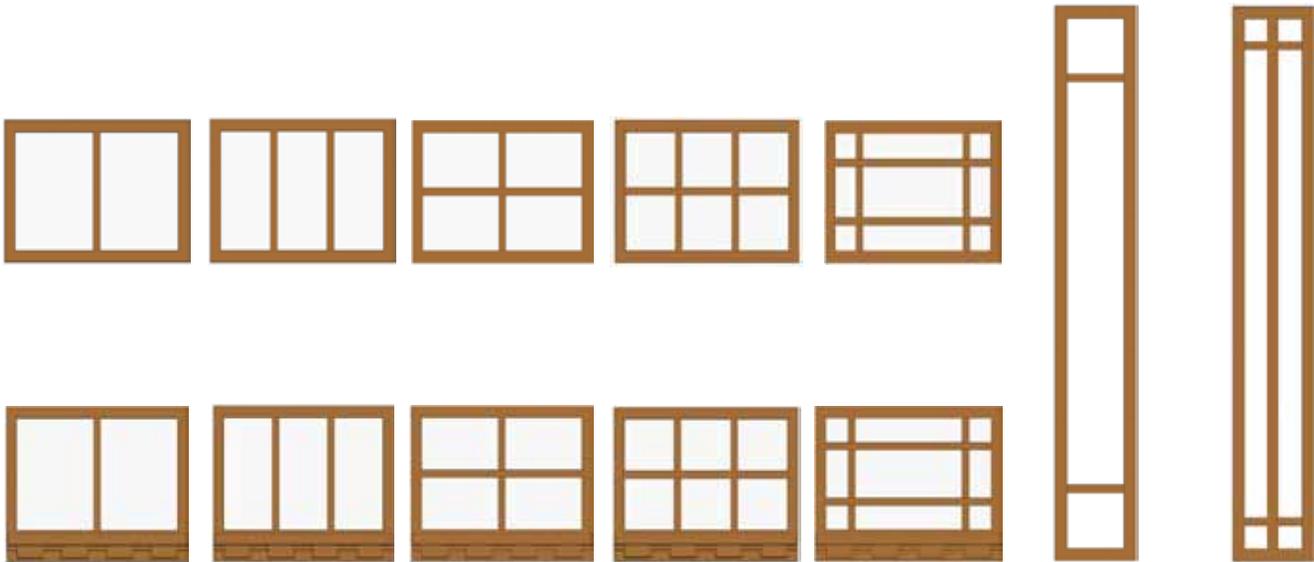

Traditional Mahogany 3 Panel Entry System

STANDARD CONFIGURATIONS

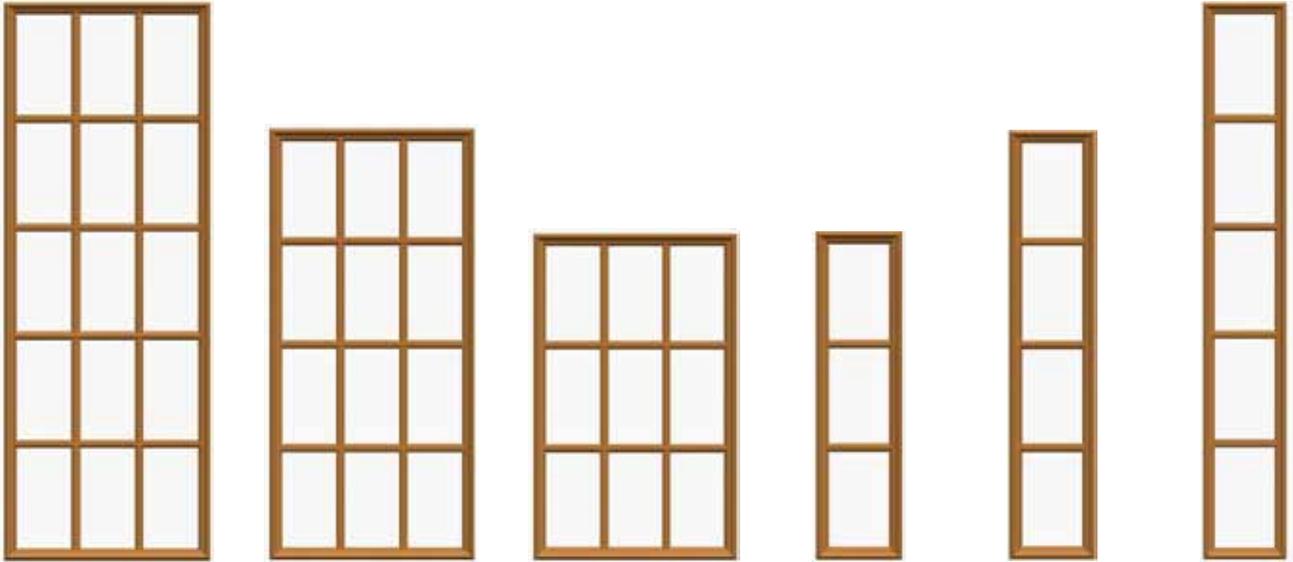

Prairie 22" x 64" Glass	Prairie 22" x 48" Glass	Prairie 22" x 36" Glass	Prairie 8" x 36" Glass	Prairie 8" x 48" Glass	Prairie 8" x 64" Glass
Available in Oak and Mahogany / Cherry					

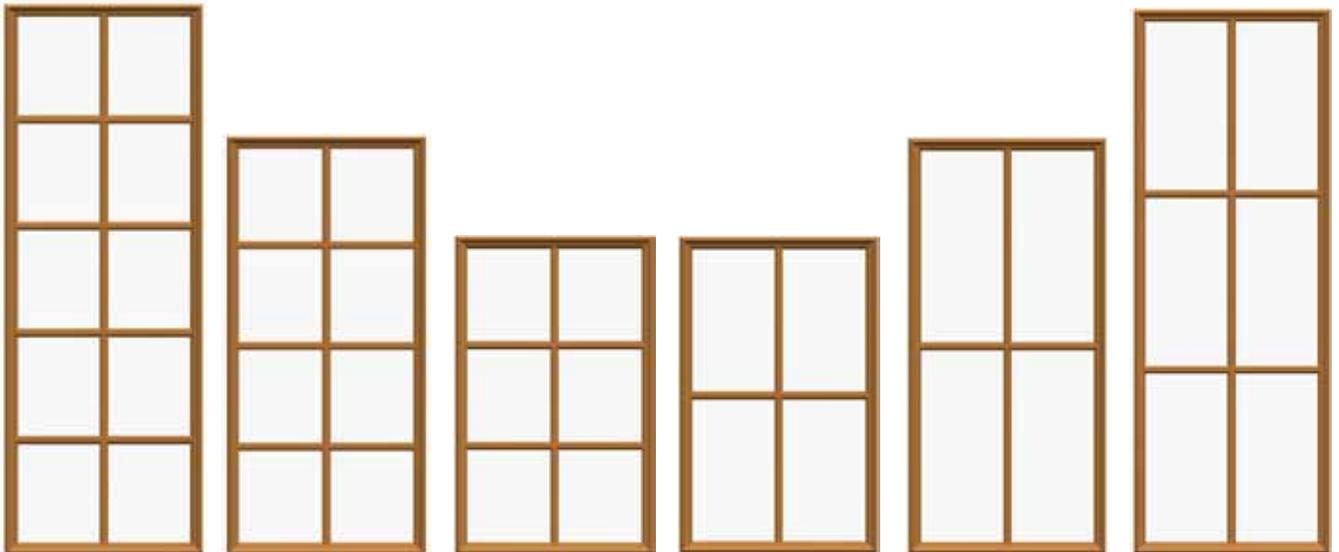

Craftsman 2 Lite 15" x 23.75" Glass	Craftsman 3 Lite 15" x 23.75" Glass	Craftsman 4 Lite 15" x 23.75" Glass	Craftsman 6 Lite 15" x 23.75" Glass	Craftsman Prairie 15" x 23.75" Glass	Craftsman 8" x 64" Glass	Craftsman Prairie 8" x 64" Glass

Available in Oak and Mahogany / Cherry					

PLUG FRAME SYSTEM

Traditional screw system with matched fiberglass grained plug caps provide excellent glass retention.

Premium Silicone Dry Seal. Provides excellent sealing and durability with no messy residue a wet caulking can leave. Used on all frames.

PLUG-LESS FRAME SYSTEM

Internal clipping system provides secure glass retention without plugs! Slam and severe weather tested!
