DOOR FEATURES

CUSTOM DOOR FEATURES

COMPOSITE RAILS ON ALL EDGES

Rod resistant composite rails are waterproof to prevent moisture from entering the door case. The bottom composite rail is designed to accommodate a large range of the door sweeps.

SURFACE TEXTURE

Superior oak, mahogany and smooth skin techniques with "High Definition Panel Embossments" provides an authentic looking stained wood and smooth finish. We capture and feel the warm texture of real wood without the disadvantages of wood door natural deterioration.

LVL LUMBER COMPONENTS

We use laminated veneer lumber (LVL) on both sides of our doors for uniform dimensions and moisture resistance. Components are reliable, stress free, and stronger than traditional lumber components so they won't warp like wood.

4" LVL with composite rails.

LOCK BLOCKS

Our extended lock block allows for an extensive range of door lock hardware installation, and because it is full length of 4 inch LVL, it provides extra security against forced entry.

COMPOSITE STYLES

A MENNIE door will never splinter like wood or delaminate like steel. Our innovative full-length composite style is fully waterproof and twice as strong as wood. No more loose screws.

DOOR CORE

Our 100% High-Density CFC Free doors provide 6 times the insulation of a traditional wood door. The advanced PU door care material also adds to the doors sound proofing.

PANEL DESIGN

Both our EXECUTIVE panel and RECESSED panel doors easily meet both the demanding contractor and customer concerns. The elegantly detailed architectural panels feature deep shadow lines that add to any home's strong curb appeal.

door jams

The overall security of any home begins with a reinforced door jamb kit. A properly fitted door-jamb not only provides a solid frame for your door to hang from, but also finishes your project once it is trimmed. To assist our customers our MENNIE doors now come with and optional precision jamb, trim, package. Our complete package insures your door-hanging project will be problem and headache free.

Mennie is the first company to launch the one and only mahogany rustic panel with all 3 sizes (32", 34", 36"). Its reversable mahogany side lite can accomodate 2 panel, 3 panel as well as the rustic panel. We make what the market wants!

NuStain

The most advanced waterbased staining system

V is a high performance, ultra low VOC stain system, specially formulated for fiberglass and composite products. Quick drying time and low odor make it easy and safe to use. Drastically reduce time wasted waiting for coating to dry- Stain both sides of a fiberglass door in one day!

NuStain will produce premium high quality finishes while offering ease of application and excellent protection for your doors. NuStain is an outstanding environmental alternative to traditional oil based (and other water based) stains while offering higher productivity and performance at the same time.

NuStain's molecular bonding, solar reflectance, and non-yellowing clear coat offer superior adhesion and UV performance when compared to traditional solvent based hand staining technologies. Productivity gains will also be achieved through exceptionally fast drying, 1 day to complete a door or within hours with IR assisted drying.

WE DO KITS!

Finishing Stain Kit includes:

- 1 PINT STAIN
- 1 QT. CLEAR COAT (SATIN FINISHED)
- 1 BTL. CLEANING AGENT
- 1 PAIR OF LATEX GLOVES
- 1 PC. BRISTLE BRUSH
- 2 PCS. FOAM BRUSHES
- 2 PCS. STIR STICKS
- 2 PCS. LINKT FREE RAGS

NUSTAIN FEATURES

- °Water based, ultra low voc including no hazardous components
- °Fast drying
- °Easy brush, rag, or spray application
- ° Odorless
- ° Non Flammable - Safe with no lock up storage required
- °UV stable (solar reflective surface ensures color retention)
- °Non-yellowing clear coat comes in either a Satin or Matte sheen
- °Strong warranty
